

WHY WE GIVE

Elder Care is an essential part of our community and just as vital as our hospital, police, and fire departments. Both of us benefited when we needed advice and guidance to care for our mothers at home.

Elder Care offers compassion and expertise in caring for the aging, regardless of the situation. That is why we support them.

We feel very strongly that they are essential to the success of our community and enhance the quality of life for our seniors.

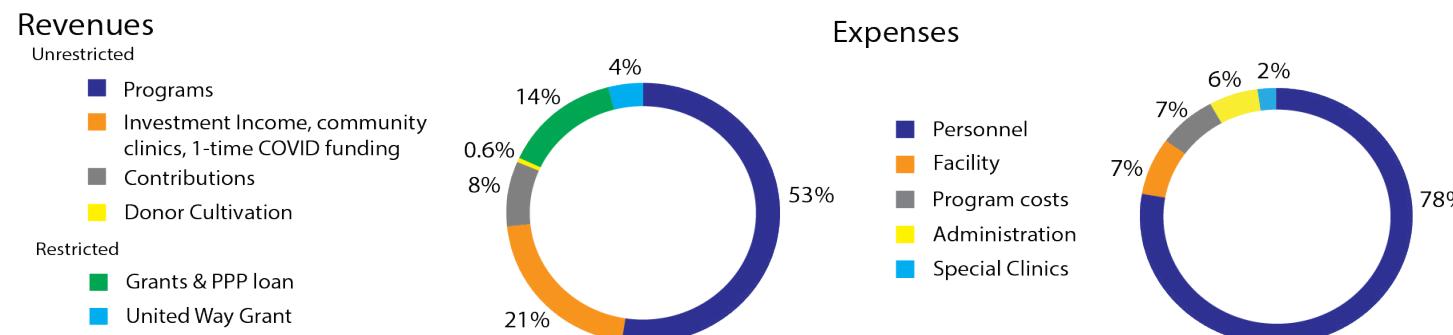

Today's gift – Tomorrow's impact

Elder Care is a great resource for our community. My family was fortunate to have had access to in-home services for my mother in the 1980's, and in most recent years I have used Elder Care's Physical Therapy, Bohon Clinic, and engaged with other seniors in social activities. My mother's experience with Elder Care was exactly what she needed to remain in her home when our father passed away. Now, I am benefiting from the programs that exceeded her experience.

Elder Care operates on a calendar year. All data in this report represents a thirteen month period, March 2020 through March 2021 to show service during the most restricted months in 2020 and 2021.

2021 ANNUAL REPORT

Earl & Jane Sears

FRIENDS SINCE 2008

Since 1983, Elder Care has led the way in northeast Oklahoma as a regional resource center on all things aging. For 38 years, we have provided services that allow seniors to receive the highest level of care from our staff in an environment they call home.

The past year brought unique challenges in adapting to the continued isolating nature of a pandemic. Our staff met these challenges, adapting to closures, no-contact restrictions, reduced patient and client flow, and budget restrictions.

Our employees took extraordinary efforts to remain connected with seniors during a very uncertain time. While we see the light at the end of the tunnel, we expect these limitations to continue into 2022.

Looking back over this past year, our employees served over 1,500 clients, providing nearly 188,000 one-on-one hours of service through In-home care, Physical and Speech Therapy Services, DayBreak, and Brighter Living Services. In addition to our regular programs, we assisted seniors with vaccination registrations. We opened our facility as a COVID vaccination site, making it possible for hundreds of seniors to receive their vaccines.

We applied for and received the federal government's one-time PPP funding and other one-time COVID-related grants. These funds, along with your contributions, sustained our work in 2021.

How can you help us now? Your financial contributions will help us meet the COVID challenges we expect to experience in the upcoming year. Your support will make an immediate impact in the lives of seniors in our area and help us reach our mission, "to help mature adults live happy, healthy, and independent lives in their own environments."

We value your relationship and always work diligently to exercise wise stewardship of the gifts you entrust to our care.

Please consider donating to Elder Care. Your financial support allows us to serve those who

When the air conditioner went out in a client's home in the middle of the summer, Elder Care delivered and installed a window unit so she and her pets could remain in her home. She could not afford the repairs at that time, and we were there for her when she needed help.

Darion Anthony, LPN

CASE MANAGER
EMPLOYED WITH ELDER CARE SINCE 2018

I learn something new at DayBreak each day."

- RUTH (2021 DAYBREAK PARTICIPANT)

"Elder Care makes it possible for me to have independent living at home. For that, I am extremely grateful."

- WANDA (2021 IN-HOME CLIENT)
